DIGITAL TRAP VOICE RELEASE SYSTEM

Made in USA

Buschi

Buschi is an innovative company in the market of clay trap machines for the shooting sports, American Trap, Trap, Double Trap, Skeet and Sporting. Our aim was to produce a machine with a simplified operating configuration and with a natural strength. Another great advantage of Buschi is manufacturing is totally national, favoring a cost of very low maintenance and immediate replacement spare parts. Produced with high technology guarantee the quality and accuracy required for professional and amateur shooters, check.

PHONO FULL

Our state-of-the-art digital Trap Voice Release System is SIMPLE to set up and very easy to operate. Each of the 5 microphones operates continuously, so there is no need to sequence, adjust or reset the system if you have a "NO BIRD" or even a short squad.

Versatile:

- For use in trap, wobble trap, true pairs etc.
- Easily portable between stands.

Set up:

- Just plug in the power supply and microphones.
- Connect to the release button cable of any trap and it's ready.
- Operate: No complicated settings or adjustments.
- Power: 12v, 120v & 240v options.

Accurate:

- Consistent trap release time - every time
- Advanced filtering minimizes unwanted noise related triggering
- Optional voice command delay mimics human timing
- Reduced costs: No need for a human puller

Construction:

- Improved powder coated stands available in 2 styles:
- 1 Lightweight stake stands that cannot be blown down or inadvertently knocked over
- 2 Heavy duty weight plate based stands to avoid microphone damage
- Robust and reliable
